Biometrics Market Adoption by Technology & Industry

In terms of technology fingerprint scanning is still the most popular technology in the industry in use in the market today although facial and voice recognition are becoming mature. Government, military and border control are the most common vertical deployments.

☆☆☆☆☆ ... the software for the control of employees is very poor.
By Vicente Iván Herrera Ramírez on November 8, 2014
Verified Purchase
The fingerprint sensor is not very effective and the software for the control of employees is very poor.

☆☆☆☆☆ The unit itself looks good. The problem we had is with the software
By Jack of all trades on April 8, 2016
Verified Purchase
The unit itself looks good. The problem we had is with the software. We could not make it work. Software is complicated and it looks like it's made in a backyard somewhere. If you can spend a bit more money for a better unit, please do so!

☆☆☆☆☆ EXTREMELY GOOD VALUE for just getting the job done.
By ShakFu on March 21, 2015
Verified Purchase
Really good. does the job. the finger print scanner is not 5/5. It takes a lot of represses to make it work sometimes thats the only reason for the 4/5. Otherwise EXTREMELY GOOD VALUE for just getting the job done.

☆☆☆☆☆ Five Stars
nice
Published 4 months ago by Amazon Customer

☆☆☆☆☆ Not good
I have been trying to enter the menu , it's not even entering the menu screen , it's only beeping
Published 4 months ago by Amazon Customer

☆☆☆☆☆ Outdated Software
Too Confusing & outdated software
Published 6 months ago by AmazonFan

☆☆☆☆☆ Buyer beware
It really sucked I received a unit that was locked much like a computer requiring a password, without the password your screwed . so I wasn't even able to use it. [Read more](#)
